Monday noon.

Dearest Jimmie:-

Will write a line as you will get one more letter from home - It was grand hearing your voice and a relief for Dad and - to know why we hadn't heard from you altho' I had figured that was the reason - altho' the folks at home can always imagine all sort of things that could happen and never do.

We've got the paint all mixed and I'm already to start painting the porch furniture - And it's a really hot day - Think the temp. must be nearly a hundred outside. We have the doors and windows closed and the blower on so it's cool inside.

I got Dad two canvas yard chairs in Blue Earth Saturday afternoon for his Father's Day present - I think they are much more comfortable than steel chairs.

I'm having my bridge club Wednesday evening and I'm going to ~~serve~~ the lunch out on the terrace so I'm trying to get it slicked up a bit, before then.

I went over to tell the kids ~~we~~ had talked to you and David did all his tricks while we were there. He stood up by the radio and danced to beat the band.

This may not reach you at Barksdale Field but good luck and my love will follow you wherever you go —
mom.
